

WARREN C. LONGMIRE

UX and Interaction Designer · Design Engineer

warrenlongmire@gmail.com | github.com/wlongmire | Philadelphia, PA

SUMMARY

Designer and engineer trained in Penn's Digital Media Design program, working where interaction design, learning, and code meet. I have designed and built interactive learning modules, therapeutic games, training courses, and learning platforms, testing them with real users from middle schoolers to nursing post-graduates, and I build what I design. A poet and performer as well, I care about clear language and the feel of an experience as much as its function.

SKILLS

Research: User interviews • Client discovery • Classroom and play-session testing • Needs analysis • Stakeholder and SME partnership

Design: Interaction design • Learning experience design • Prototyping • Animation and motion • Visual design (Illustrator) • Accessible design • Content and plain-language writing

Build: React • HTML / CSS • JavaScript • Creative coding and generative visuals • TouchDesigner • Canvas LMS

DESIGN EXPERIENCE

University of Pennsylvania, Institute of Cognitive Research · *Interaction Designer, Pennlincs* 2007 – 2009

- Designed the look and feel of five interactive math modules in Illustrator and built their animation and interaction layers.
- Field-tested modules in grade 7–8 classrooms, feeding observations back into design; built a reusable component library. Featured in The New York Times.

School of Nursing, University of Pennsylvania · *Consultant and Lecturer* 2012 – 2013

- Built three interactive prototypes and two mobile mockups for the PTSD Toolkit for Nursing web training course.
- Held design meetings with five teams building healthcare software; lectured on game design and "How to Talk to a Developer."

Little Bird Games · *Web Developer* 2013 – 2016

- Joined design sessions with the lead designer, product manager, and clients; designed an ADHD-intervention game suite for a Florida State University study and a learning platform used by 400 students.

Center for Autism Research, Children's Hospital of Philadelphia · *Lead Software Developer* 2009 – 2012

- Built four game-based interventions for children on the autism spectrum and helped run play sessions with twenty 9–12 year-olds.

Argo Digital · *Technical Lead* 2017 – 2018

- Led user interviews and client communication for two software products, translating findings into features for a four-person team.

Galvanize / Bloom School of Technology · *Curriculum Developer / Lead Instructor* 2020 – 2024

- Designed learning experiences end to end and a company-wide guided-projects workflow in Canvas, from instructor needs through rollout and training.

INTERACTIVE AND MEDIA WORK

Victim Interface, interactive installation, New Media Caucus Symposium, Arizona State University | 2026

Nick Virgilio Haiku Association, coordinate web redesign with contractors; edit and lay out anthologies | 2024 – Present

Moonstone Arts Center, guide interns' web, design, and content projects | 2025 – 2026

EDUCATION

University of Pennsylvania, B.S.E. Digital Media Design; DMD Achievement Award | 2007

Western Governors University, M.S. Learning Experience Design and Educational Technology | 2024

University of Iowa, Iowa Writers' Workshop, M.F.A. Creative Writing | 2026
